MY WORK

My projects with PHP, HTML, CSS and JavaScript:
- **Inventory System (PHP):**
  - https://github.com/arif853/inventory.git
- **Online Prescription (PHP):** Make Prescription with pdf format. Here I use HTML, CSS in Front end and raw PHP for Back end.
  - https://github.com/arif853/prescription.git
- **Here is my resume design with HTML and CSS:**
  - https://github.com/arif853/myresume
- **Restaurant Reservation App (Laravel):** This a restaurant reservation system that builds by myself and here added reservation system, Menus, categories. This system builds with PHP framework Laravel. It has Frontend and admin system.
  - https://github.com/arif853/restaurant_reservation.git
- **ERP System:** A simple ERP system built with Laravel Ajax.
  - https://github.com/arif853/keti-erp.git
